**Cc:** Sen. Kissel, John A.; zRepresentative Tami Zawistowski  
**Subject:** Senate Bill 1090

We support the bill which in essence would create jobs in Connecticut. The ideal location would be near Bradley Airport. That location has adequate roads and hotels are nearby that can support the added traffic. This area can support this venue without disturbing the character of the nearby communities.

This area could also support a baseball team - but that would not come right away, only after the Hartford team fails and is ready to move.
